

# Perplexity Space: Jamoaviy Hamkorlik va Ma'lumot Almashish Platformasi

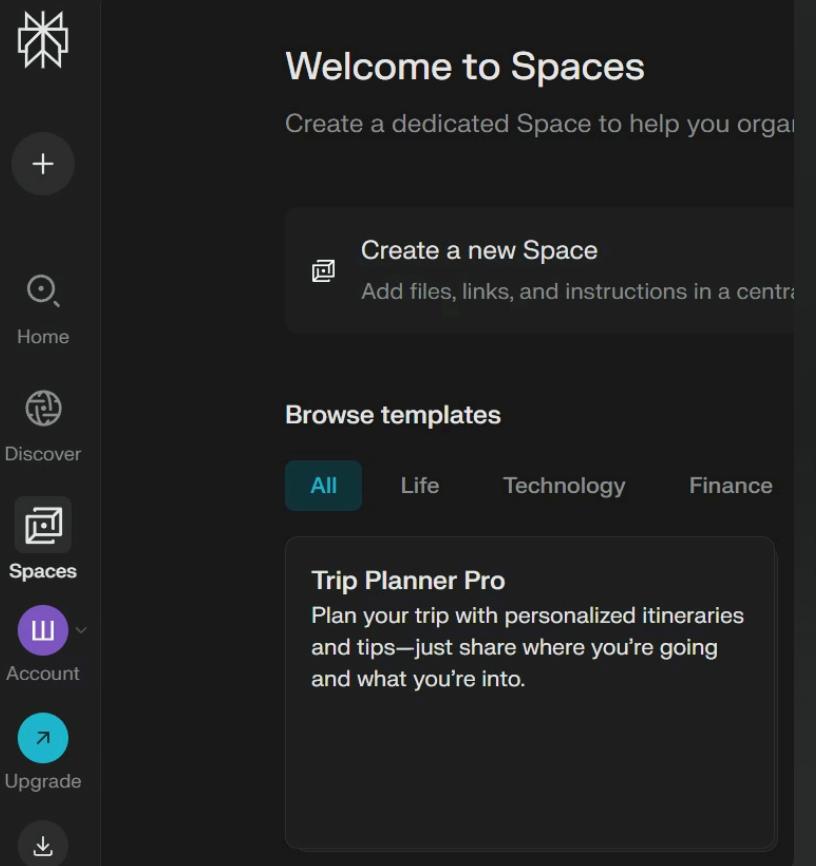

Perplexity Space - bu zamonaviy jamoaviy hamkorlik va markazlashtirilgan ma'lumot almashinuvi uchun maxsus ishlab chiqilgan interaktiv loyiha muhitidir. Bu platforma jamoalar uchun strukturaviy tuzilma, versiya nazorati va keng qamrovli funksionallikni taqdim etadi.

Ushbu taqdimotda biz Space funksiyasining barcha imkoniyatlarini batafsil ko'rib chiqamiz va uni qanday samarali ishlatalishni o'rganamiz. Har bir bosqich amaliy misollar bilan tushuntiriladi.

**Trip Planner Pro**

Plan your trip with personalized itineraries and tips—just share where you're going and what you're into.

## Chap Menyuga Kirish

Chap tomonagi navigatsiya menyusida Spaces tugmasini toping va bosing

## Mavjud Spaces Ko'rish

Oldin yaratilgan barcha Space'larning ro'yxatini ko'rib chiqing

## Yangi Space Yaratish

Create Space tugmasini bosib, yangi loyiha muhitini boshlang

Interfeys sodda va intuitiv tarzda tuzilgan bo'lib, yangi foydalanuvchilar ham osongina orientatsiya qila olishadi. Barcha asosiy funksiyalar bitta joyda to'plangan.

# Yangi Space Yaratish Jarayoni

**Create a Space**

**Title**  **Emoji**

**Description (optional)**  
A collaborative space for discussing latest insights...

**Custom Instructions (optional)**  
Give instructions to the AI that affects every thread in this space.  
Always respond in a formal tone and prioritize data-driven insights...

**Cancel** **Continue**

## Space Nomi

Loyihangiz uchun aniq va tushunarli nom kriting, masalan "Marketing Loyihasi" yoki "Tadqiqot Markazi"

## Tavsif Yozish

Space maqsadi va asosiy yo'nalishlarini qisqacha, lekin aniq tarzda bayon eting

## Maxfiylik Sozlamalari

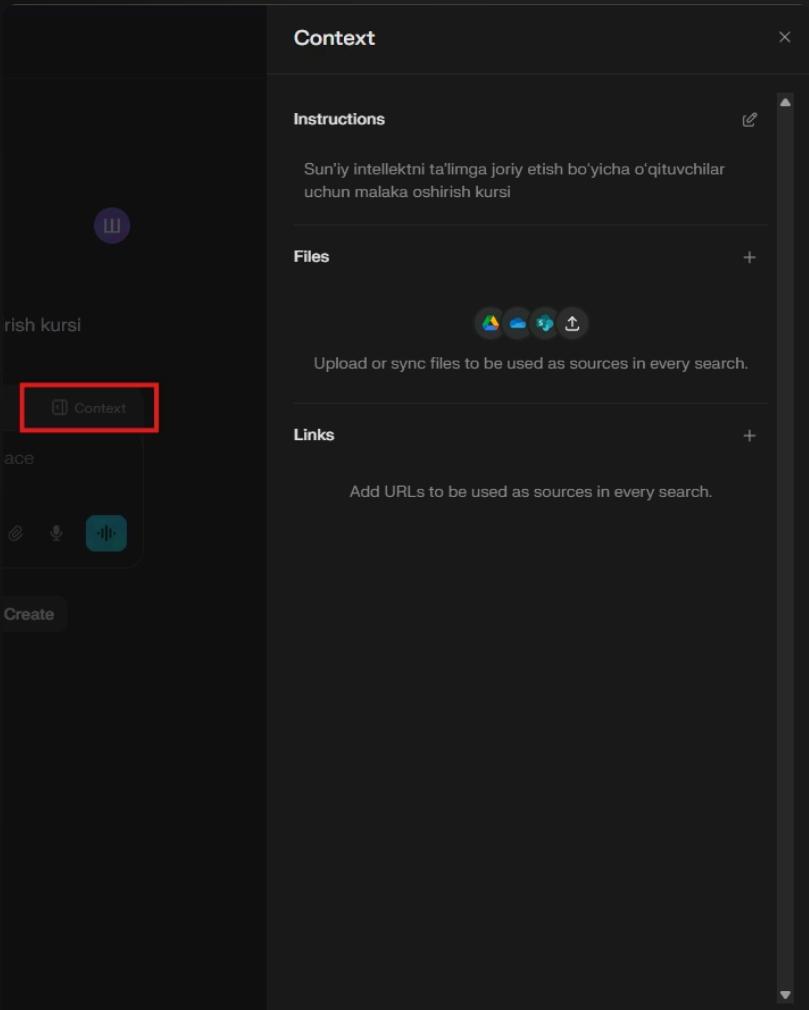

Public (ochiq) yoki Private (yopiq) rejimini tanlang, loyiha talablariga qarab

## Space Yaratish

Barcha ma'lumotlarni to'ldirib, Create tugmasini bosing

# Bo'limlar va Sahifalar Strukturasi

The screenshot shows a dark-themed digital workspace interface. On the left, there's a sidebar with various icons: a purple circle with 'U', a blue square with 'rash kursi', a red-bordered 'Context' button, a white square with 'ace', a blue square with a microphone, and a green square with a speaker. Below these are 'Create' and 'Recent' sections. The main area has tabs for 'Context', 'Instructions', 'Files', and 'Links'. The 'Context' tab is currently active, displaying instructions about creating a knowledge base for students and files for search sources. The 'Files' tab shows upload and sync options, and the 'Links' tab shows URL source options.

## Bo'lim Qo'shish

Add Section tugmasi orqali yangi bo'lim yarating va unga nom hamda tavsif bering

## Sahifa Yaratish

Har bir bo'limda Add Page tugmasini bosib, alohida sahifalar qo'shing

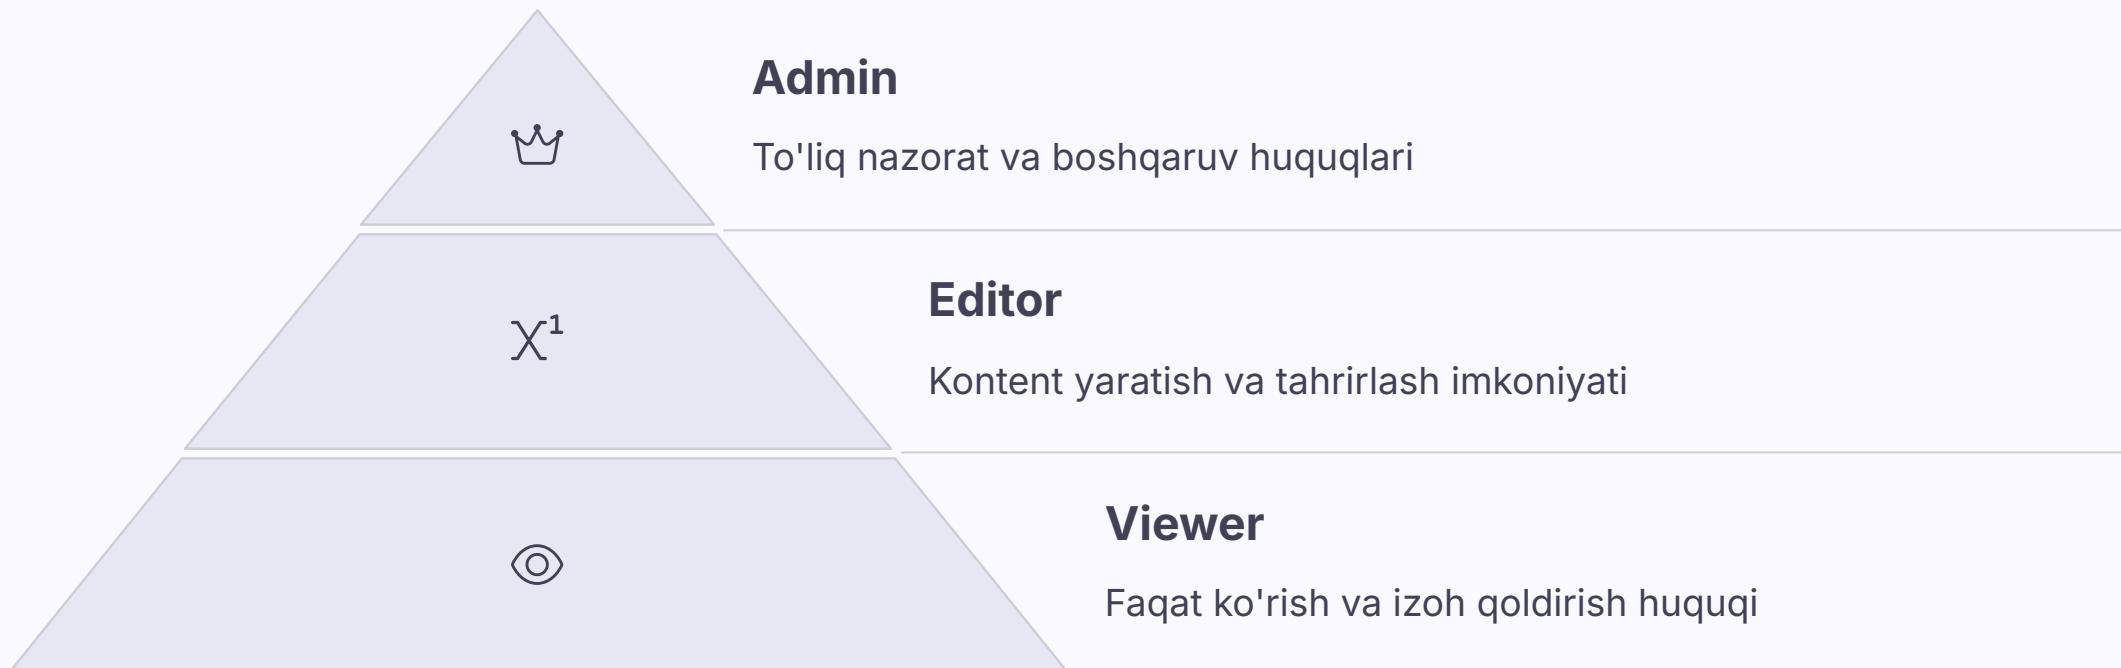

## Kontent Qo'shish

Sahifalarda Text, Media va Link elementlarini strategik tarzda joylashtiring

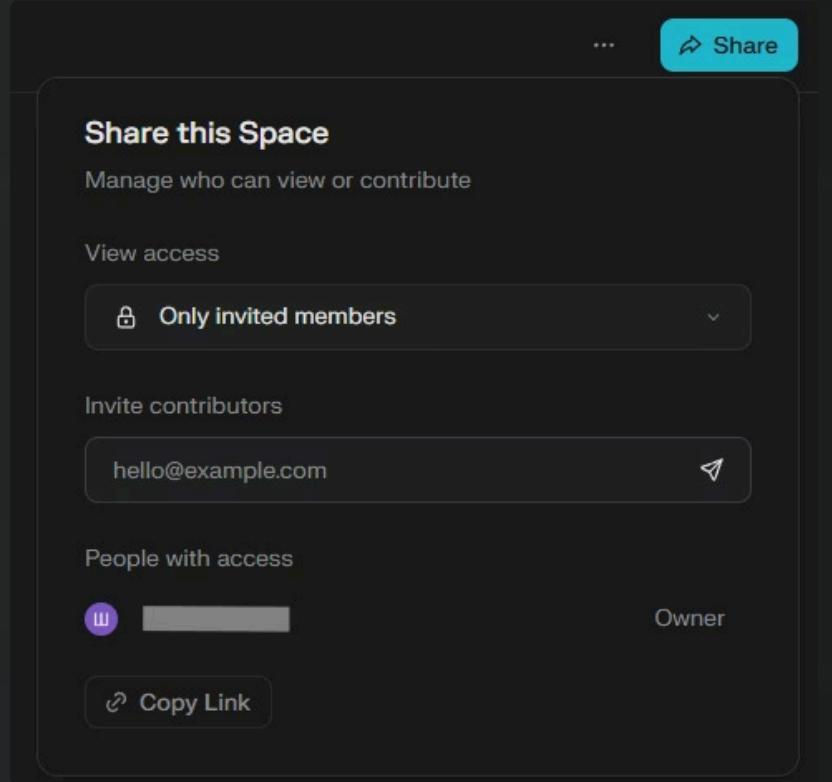

Strukturaviy yondashuv loyiha materiallarini mantiqiy tartibda tashkil etishga yordam beradi. Bu jamoaning samaradorligini sezilarli darajada oshiradi va ma'lumotlarga tez kirish imkonini yaratadi.

# Jamoa A'zolari va Rollar Tizimi

Rol tizimi loyiha xavfsizligini ta'minlaydi va har bir a'zoning mas'uliyat sohasini aniq belgilaydi. Members bo'limida email yoki username orqali yangi a'zolarni taklif qilish va ularga mos rollarni tayinlash mumkin.

# A'zolarni Taklif Qilish Jaryayoni

The screenshot shows a 'Share this Space' section. It includes a 'Share' button, a 'Members' tab dropdown set to 'Only invited members', an 'Invite contributors' input field containing 'hello@example.com', and a 'People with access' section showing one user with the role 'Owner'. A 'Copy Link' button is also visible.

## Members Bo'limiga O'tish

Space ichida Members tab yoki bo'limini toping va bosing

## Invite Tugmasini Bosish

Yangi a'zo qo'shish uchun Invite tugmasini faollashtiring

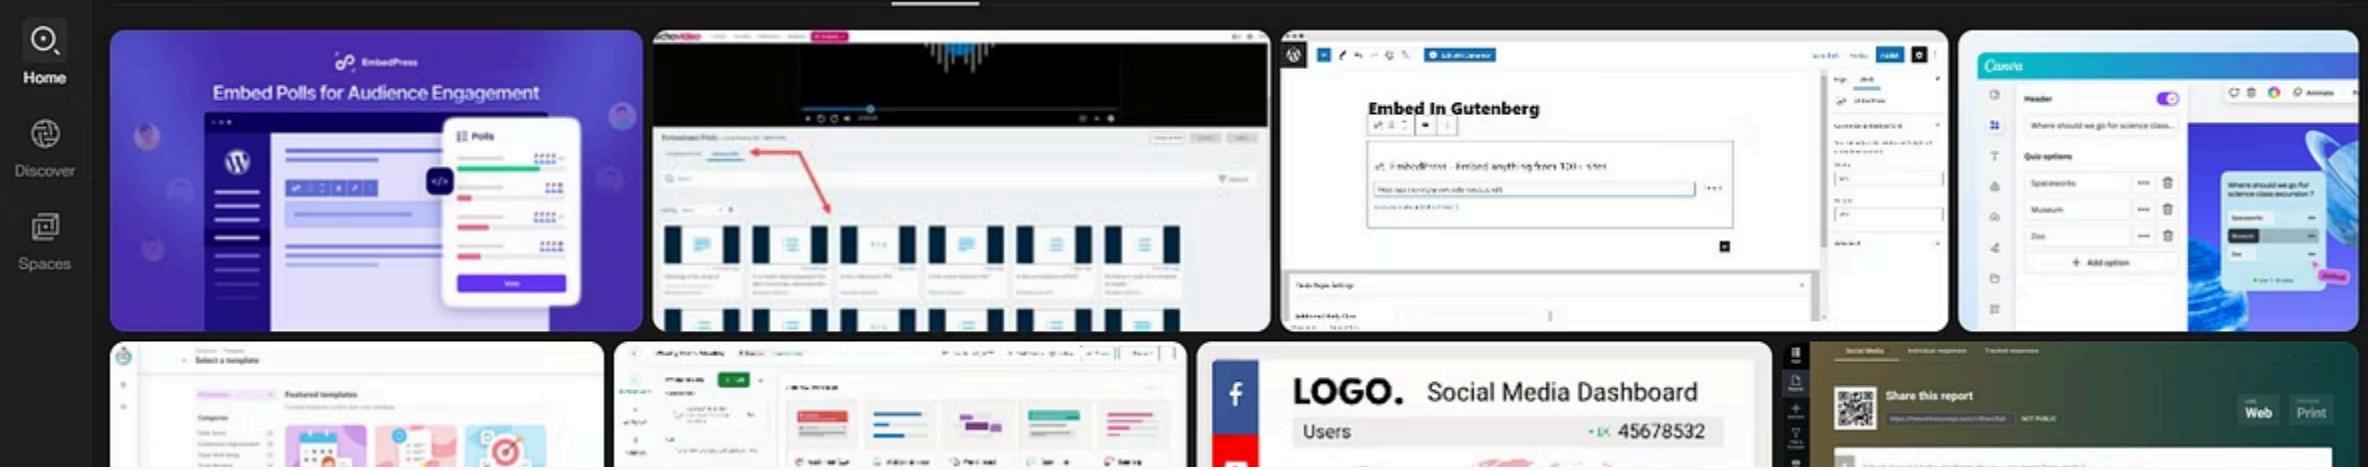

## Ma'lumotlar Kiritish

Taklif qilinayotgan shaxsning email manzili yoki username'ini kriting

## Rol Tanlash va Yuborish

Admin, Editor yoki Viewer rolini tanlab, Send Invite tugmasini bosing

Taklif jaryayoni oddiy va tez amalga oshiriladi. Taklif qilingan shaxs email orqali xabar olib, Space'ga qo'shilish uchun havolani bosishi kifoya.

# Interaktiv Elementlar va Media Integratsiyasi

- |                                                                                                                                                                    |                                                                                                                                                           |                                                                                                                                                         |                                                                                                                                                                                 |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  <b>So'rovnomalar</b><br>Jamoa a'zolari<br>fikrini bilish uchun<br>Poll yarating |  <b>Viktorinalar</b><br>Bilimlarni tekshirish<br>uchun Quiz<br>qo'shing |  <b>Oq Doska</b><br>Brainstorming<br>uchun Whiteboard<br>ishlatting |  <b>Media Kontent</b><br>YouTube, Google<br>Docs kabi tashqi<br>resurslarni embed<br>qiling |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Interaktiv elementlar Space'ni jonli va jalb qiluvchi muhitga aylantiradi. Embed funksiyasi orqali Google Docs, Slides, Miro board va boshqa platformalardagi kontentni bevosita Space ichida ko'rsatish mumkin.

# Versiya Nazorati va O'zgarishlar Tarixi

## History Funksiyasi

Har bir sahifada History tugmasi orqali barcha o'zgarishlar tarixini ko'rish mumkin. Bu funksiya kim, qachon va qanday o'zgarish kiritganini batafsil ko'rsatadi.

Versiya nazorati loyiha rivojlanish jarayonini to'liq kuzatish imkonini beradi va xatoliklar yuz berganda tezda tiklash imkoniyatini taqdim etadi.

## Revert Imkoniyati

Agar kerakli bo'lsa, istalgan oldingi versiyaga qaytish mumkin. Revert funksiyasi orqali noto'g'ri o'zgarishlarni bekor qilish va ishonchli versiyaga qaytish oson.

Bu xususan katta jamoalarda ishlaganda juda muhim, chunki bir nechta odam bir vaqtda tahrirlash qilishi mumkin.

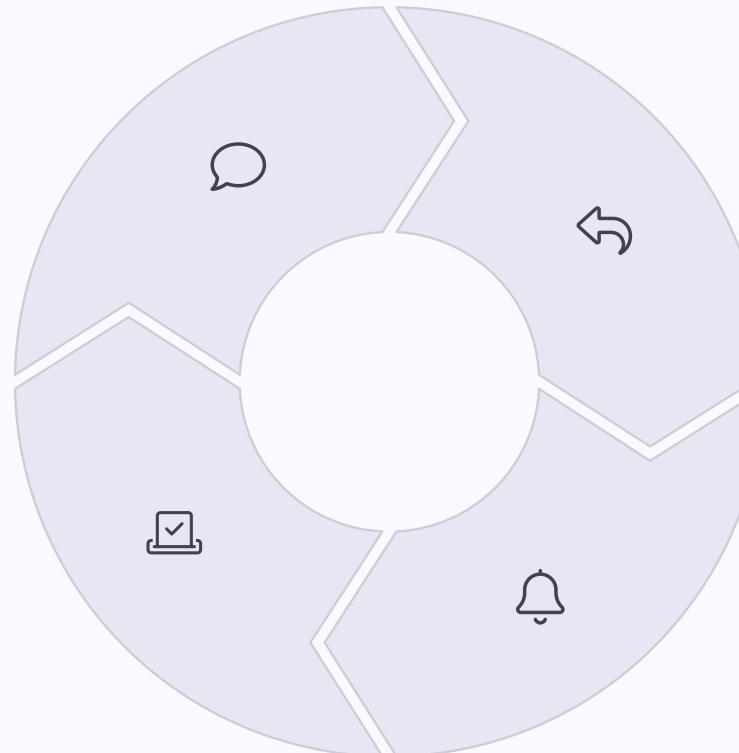

# Izohlar va Fikr Almashish Tizimi

## Izoh Qoldirish

Sahifaning istalgan qismida  
Comment tugmasini bosib, fikr  
bildiring

## Masalalarni Hal Qilish

Muhokama natijasida kerakli  
o'zgarishlarni amalga oshiring

## Javob Berish

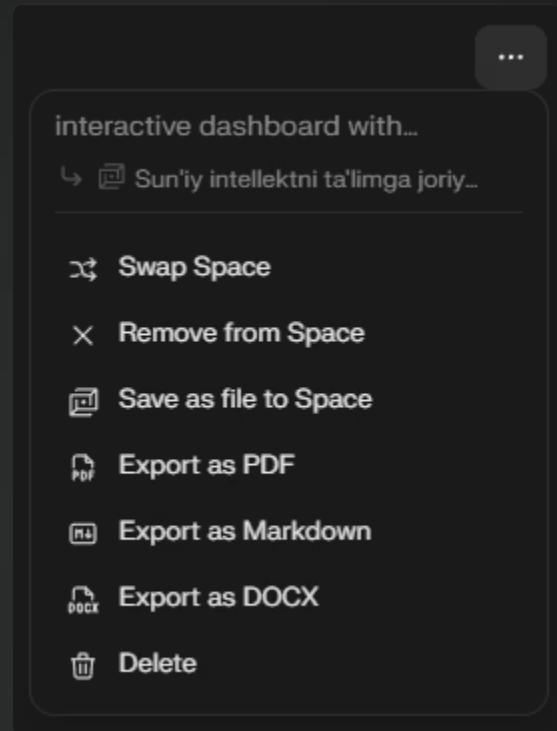

Boshqa a'zolarning izohlariga javob  
berib, muhokama qiling

## Bildirishnomalar

Yangi izohlar haqida avtomatik  
xabar oling

Izohlar tizimi real vaqtda fikr almashish va masalalarni birlgilikda hal qilish imkonini yaratadi.

# Eksport va Saqlash Imkoniyatlari

## PDF Eksport

Space kontentini PDF formatida yuklab oling. Bu prezentatsiyalar va hisobotlar uchun ideal variant hisoblanadi.

## HTML Eksport

Veb-sahifa sifatida saqlash uchun HTML formatini tanlang. Bu kontentni onlayn ulashish uchun qulay.

## Zaxira Nusxa

Muntazam ravishda eksport qilish orqali loyiha ma'lumotlarining zaxira nusxasini yarating.

Eksport funksiyasi Space ichidagi barcha kontentni tashqi formatda saqlash imkonini beradi. Bu ma'lumotlar xavfsizligi va portativlik uchun muhim ahamiyatga ega.

# Ommaviy Nashr Qilish va Ulashish

## Public Nashr

Space'ni barchaga ochiq qilish

## Private Ulashish

Faqat ma'lum kishilarga kirish berish

## Havola Yaratish

Tezkor ulashish uchun havola olish

Publish funksiyasi orqali yaratilgan kontentni keng auditoriya bilan ulashish mumkin. Public yoki Private rejimni tanlash loyiha talablariga bog'liq bo'ladi. Havola orqali ulashish eng tez va qulay usul hisoblanadi.

# Perplexity Space vs Boshqa Platformalar

Xususiyat	Perplexity Space	ChatGPT	Google Docs/M365
Jamoaviy ish	Maxsus muhit	Tarix + chat	AI yordamchisi, fayl
Tuzilma	Sections va sahifalar	Tekis chat	Sahifa/bo'lim
Interaktivlik	Poll, Quiz, Whiteboard	Matn va prompt	Form va embeddable
Versiya nazorat	To'liq tarix + Revert	Yo'q	Ha, AI bo'limisiz
Publikatsiya	Havola (Public/Private)	Yo'q	Ha, lekin AI bo'lmas

Taqqoslash jadvalidan ko'rinib turibdiki, Perplexity Space jamoaviy ishslash uchun eng muvozanatli yechim taqdim etadi.

# Space'ning Noyob Afzalliklari

**100%**

## Versiya Nazorati

To'liq o'zgarishlar tarixi va qaytarish imkoniyati

**50+**

## Interaktiv Elementlar

Poll, Quiz, Whiteboard va embed funksiyalari

**24/7**

## Real-time Hamkorlik

Doimiy synxronizatsiya va jonli yangilanishlar

## Strukturaviy Imkoniyatlar

Cheksiz bo'limlar va sahifalar yaratish

Bu raqamlar Perplexity Space'ning boshqa platformalardan ustunligini yaqqol ko'rsatadi.  
Platforma zamonaliviy jamoaviy ish talablarini to'liq qondiradi.

# Amaliy Qo'llash Sohalari

	Biznes Loyihalarda	Tadqiqot Ishlarida	Ijtimoiy Loyihalarda
<b>Ta'lim Sohasida</b>	35% foydalanish	20% foydalanish	20% foydalanish
<b>25% foydalanish</b>	<ul style="list-style-type: none"><li>Jamoa koordinatsiyasi</li><li>Mijozlar bilan ishlash</li><li>Mahsulot rivojlantirish</li></ul>	<ul style="list-style-type: none"><li>Ma'lumotlar tahlili</li><li>Natijalar almashish</li><li>Hamkorlik tadqiqotlari</li></ul>	<ul style="list-style-type: none"><li>Jamoat tashkilotlari</li><li>Xalqaro hamkorlik</li><li>Volontyorlik dasturlari</li></ul>

# Xulosa va Keyingi Qadamlar

## Asosiy Ustunliklar

Perplexity Space dars va tadqiqot materiallarini jamoaviy boshqarish, interaktivlik va versiya nazoratini birlashtirgan noyob muhit yaratadi

## Boshlash Uchun Tavsiyalar

Kichik loyiha bilan boshlang, jamoangizni bosqichma-bosqich qo'shing va barcha funksiyalarni sinab ko'ring

## Muvaffaqiyat Kaliti

Muntazam foydalanish, to'g'ri rol taqsimoti va faol hamkorlik orqali maksimal natijaga erishing mumkin

Perplexity Space zamonaviy jamoaviy ish uchun eng yaxshi yechimlardan biri hisoblanadi. Uni to'g'ri ishlatalish orqali loyiha samaradorligi va jamoa hamkorligi sezilarli darajada yaxshilanadi. Hoziroq o'z birinchi Space'ingizni yarating va bu ajoyib imkoniyatlarni o'zingiz sinab ko'ring!
