

Sayyohlik tuguni – arqonlar, tasmalar va shunga o'xshash boshqa vositalarini bog'lash yoki qo'shib o'rish asosida birlashtirish usuli.

Sayohatda tugunlarni qo'llash:

- chodir o'rnatishda;

- suv to'siqlarini yengish uchun;

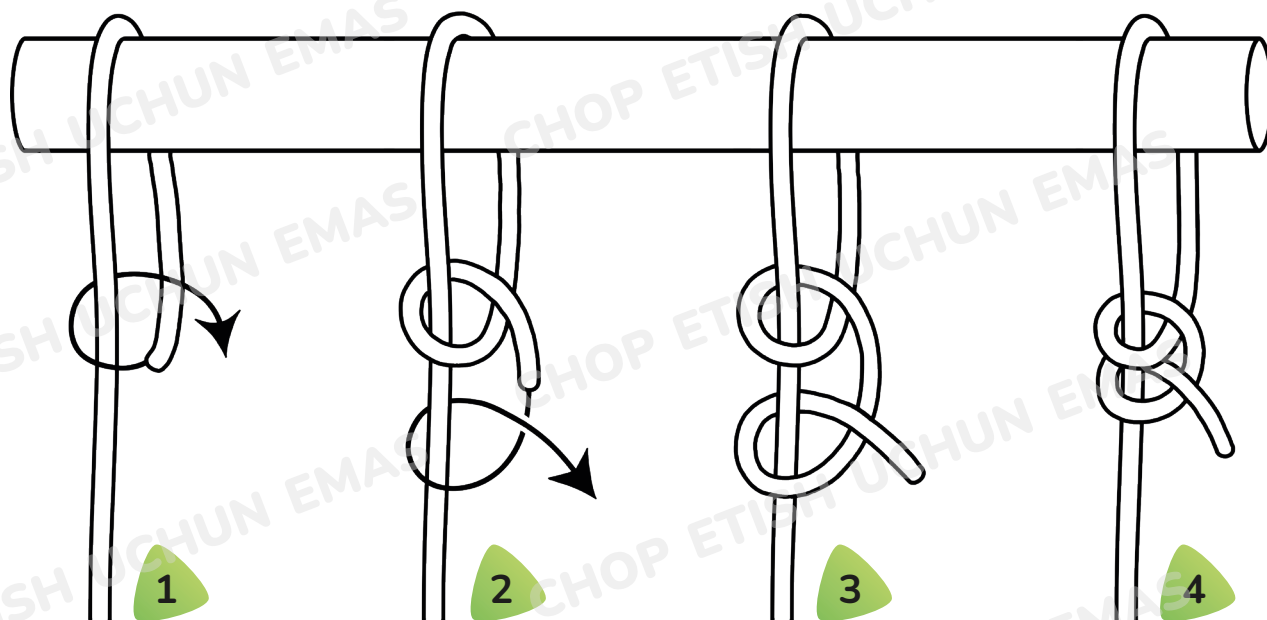

- baliq tutish uchun;
- balandlikdan tushish uchun;
- gulxanga o'tin yoki quruq shoxlar to'plashda.

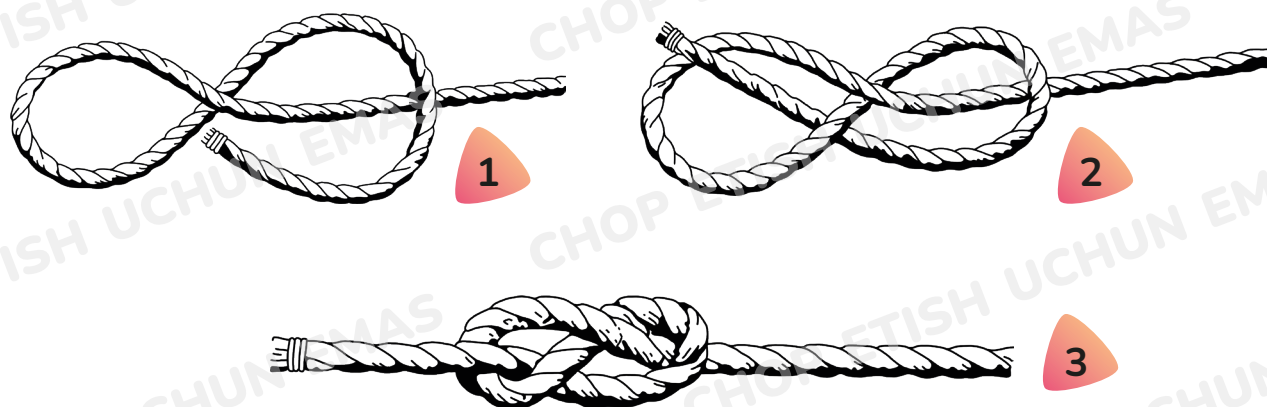

Tugun – har qanday chiziqlarning birlashgan yoki kesishgan joyi.

Universal tugunlarni bog'lashni o'rganing.
